

PERFORMANCE – DESIGN – SUSTAINABILITY

With its complete portfolio of closure solutions, Vinventions strives to provide sustainable high-performance products and services that are truly unique and innovative. The ultimate objective is to ensure that each and every Vinventions offering is “best in class” with value-added and differentiated performance, design, and sustainability characteristics.

CUSTOMER VALUE

Performance

Both on the bottling line and in the bottle, each Vinventions closure ensures:

- *Bottle-to-bottle consistency*
- *Fault-free wine preservation*
- *Pleasurable consumer opening experiences*

Design

Natural and sustainable closures respecting tradition and contemporary solutions for opening convenience, all designed to:

- *Maximize market appeal*
- *Satisfy consumer preference*
- *Provide premium look and feel*

Sustainability

All Vinventions products are proactively designed to minimize unfavorable environmental impact through the use of natural and sustainable raw materials that:

- *Minimize carbon footprint*
- *Enable recycling*
- *Are safe, clean and regulatory compliant*
